

THE IOLA REGISTER.

FRIDAY, MAY 1, 1891.

Published every Friday.
Entered in the postoffice at Iola as class matter.

CHAS. F. SCOTT.

OFFICIAL PAPER OF ALLEN COUNTY.

SUBSCRIPTION RATES.
One year (12 numbers) in advance \$1.50
One year (12 numbers) if not in advance 2.00
Six months, in advance 1.00
Three months, in advance .50
Single copy 5c.

Subscribers will notice that the date of the expiration of their subscription is appended to the address on their papers. It is hoped that this will make it unnecessary to send bills to delinquent subscribers, as all such will be admonished each week of their delinquency. Papers sent outside of the county will be stopped at the expiration of the subscription unless payment in advance, or as nearly as possible, is also expected from subscribers within the county, but such papers will be stopped unless so ordered. Change of the date of the label without notice will be considered a sufficient receipt.

The World's Fair convention that met at Topeka last week decided that the best plan to secure a Kansas display was to assess each county in the State on the basis of its assessed valuation, a sum sufficient to aggregate \$100,000. The Register would be the last to throw cold water on any plan that gave promise of success; but it is our opinion that this plan does not give such promise. The money cannot lawfully be appropriated out of the county treasuries and must therefore be raised by private subscription. We do not believe it can be raised in this way. Senator Martin's scheme, to have the Legislature convene in special session, on a personal pledge of a majority of the members that they will not apply for per diem, nor attempt other legislation than the passage of a World's Fair appropriation, seems to us to be the only practicable one.

W. C. T. U. Notes.

We often read such items as the following from a Kansas City paper:
A party of men, all drunk, got into a quarrel over cards in a certain saloon. A fight ensued, in which one was killed; the other two were arrested and held for the murder.
Query. Did the man who kept the saloon and sold to these men the maddening drink have no hand in that murder? Of course not, for has he not a legal right to deal out this same drink? So he washes his hands in innocence, and continues his business. Then the authorities who gave him his license must surely have had a hand in the crime, but they would feel insulted to be thus accused; for did not the people demand such a place? This shifts the responsibility on many. And will not the blood, not only of this murdered man, but the more than sixty thousand who die annually from this cause, cry out in judgment against every one who votes to legalize the liquor traffic, or engages in it?

This is the way Mrs. Mary T. Lathrop put the license question at the late Woman's International Council: "Drunkness is not the National evil of the day; the real evil is the licensing of a vicious traffic. 'No drunkard can inherit eternal life,' and yet we license three hundred thousand men to sell away the chances of others for eternity."

Archbishop Ireland says: "The great cause of social crime is drink. When I hear of a family broken up, and ask the cause—drink. Then I ask myself in perfect wonderment: 'Why do not men put a stop to this thing?' Our legislators will come together and pass every measure necessary to the welfare of the people, and yet pass laws sanctioning the sale of liquor through saloons."

MERT WINS.
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. W. H. Evans, druggist.

Warning.
All parties are hereby warned that prosecution will follow any attempt to hunt or fish without permission on the farm of Z. E. Bennett in Geneva township or on the Vannoy tract just east of it.

spring 1891 summer.

At the beginning of each year we take an invoice of stock;

then attend to the clearing up of winter trade. Winter trade

is about over and we are pleased to say that it has been exceed-

ingly good, trade for the first two months of this year far sur-

passing that of the corresponding time last year. We certainly

appreciate this mark of confidence in us, our goods, and our

prices, as shown by such a liberal patronage. This we shall

always strive to merit.

As for Spring and Summer, the goods in all lines are now nearly all in stock.

CASH IN HAND WILL ALWAYS TELL. That's the way we buy. It

gives the lowest prices, greatest discounts, and best manufacturers to select

from (for that kind seeks only safe trade). We give our customers the advantage

of all this.

Now, is there anything in our line you want or shall want?
